BUSINESS PROCESS MODELING

BPM 1: Study Process & BPM 2: Content Management

BPM 1: Learner Study & Lesson Navigation

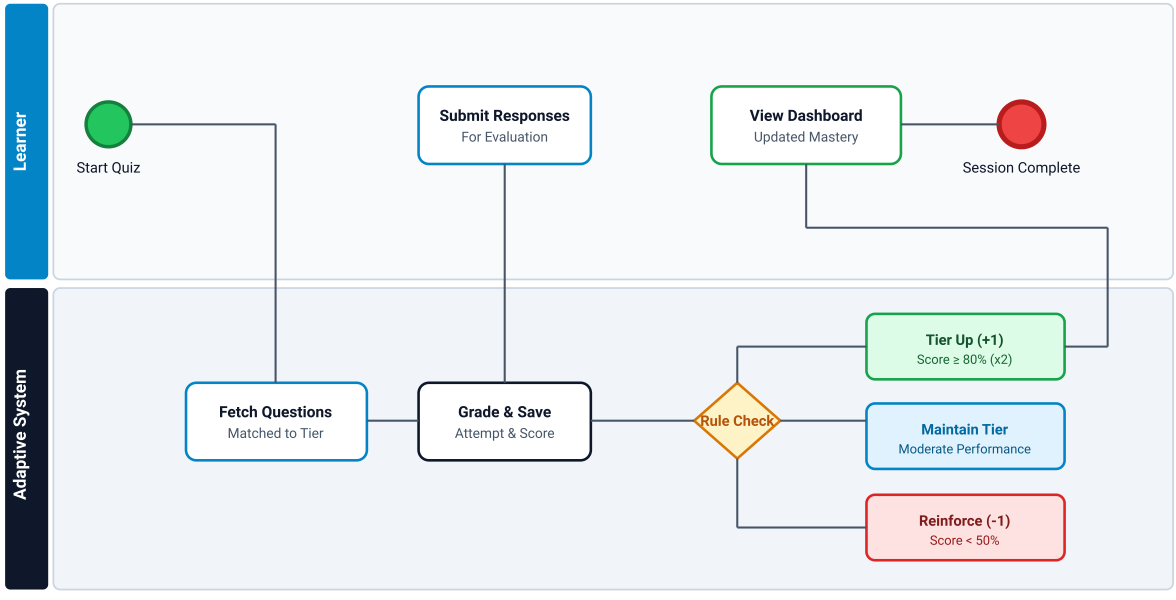

BPM 2: Administrator Content Management Workflow

Explanation: BPM 1 models how learners navigate lessons with strict availability checks. BPM 2 models the content lifecycle where input validation prevents incomplete or broken quizzes from entering the live learning catalog.

BUSINESS PROCESS MODELING

BPM 3: Adaptive Quiz & Grading Engine

Explanation: BPM 3 documents the core adaptive loop. Questions are pulled based on the active difficulty tier. Upon quiz completion, the system executes rule-based evaluations to advance, maintain, or reinforce difficulty tiers before synchronizing progress metrics to the learner dashboard.
